The Food Systems Leadership Network

A national peer learning community that connects current and emerging leaders, strengthens individual and collective leadership capacity, and fosters collaboration across communities.

- We envision these leaders linked through a living network of shared purpose, learning, and action that advances social justice locally, regionally, and nationally.
- The goal of the network is to accelerate the realization of a just, equitable, and sustainable food system that generates good food, health, and opportunity for all.

The Difference between Mentorship and Technical Assistance

- Mentorship is based on relationship— a mentor's purpose is to support their mentee.
- Mentees consistently say their mentor was a sounding board.
- Asking for and receiving specific technical assistance may be *part* of the relationship, but it is not its primary purpose
- Answers/solutions ultimately reside within the mentee.
- Mentors are also learning--solidifying their own experience and expertise, and exchanging ideas with mentees.

WHAT MENTEES HAVE WORKED ON

- Organizational Leadership
 - Developing accountability within an organization
 - Community engagement and transferring power
- Personal Leadership
 - Prioritizing where to direct your energy to be most effective
 - Addressing self doubt and imposter syndrome
